**FLATBED HAULING**

# HOT SHOT TRUCKING

**Our Mission** is to elevate the transportation industry standards to set ourselves apart in the world of hotshot trucking

# Hot Shot Trucking

Hotshot Trucking involves the transportation of smaller and more time-sensitive freight. This service is used to haul less-than-truckload (LTL) shipments that are generally under 30,000 lbs. Hotshot Trucking ensures that small and sensitive shipments arrive at their destination within a specific time frame. Additionally, hotshot loads are typically. This service is ideal for businesses and customers that require the delivery of smaller and time-sensitive loads to accessible locations. transported using medium-duty trucks that pull flatbed trailers. Similar to LTL shipping, the use of this service is primarily determined by the weight and occupancy requirements of a specified freight shipment.

## Why is it worth using our services?

With over 10 years of experience in transport services FLOATR provides cost-effective hauling services in a very dynamic environment keeping safety standards on top all the time.

## — Situations when hot shot trucking may be the best option:

### Large freight

When you need to transport items that are too large, our open flatbed help accommodate.

### Too heavy freight

When you need to move something small in size but heavy in weight, hot shot trailers are the perfect option.

### Delicate freight

When you need to transport items that are too delicate for normal transport, Floatr provides tarps to cover the cargo.

### Time sensitive transport

When you need to transport items that are time sensitive, hot shots ensure faster, more efficient moves.

## Reasons to transport your load with a Hot Shot

Hot Shot Transport is a faster, cheaper alternative to transport your oversized cargo from point A to point B. It has a smaller carbon footprint, but almost the same hauling power capabilities as a transport truck. The hot shots are capable of towing up to 30,000 pounds. For this reason, hot shots are a great alternative to transport multiple construction machines like; bulldozers, excavators, backhoes, forklifts, skyjacks and skid steers. We can fill up an entire 35 or 40-foot trailer for FTL loads.. We also can carry freight with a height up to 11 feet.

- Fill up an entire 48 or 53-foot trailer for FTL
- We can carry freight with height up to 11 feet.

### Better Pricing

Hotshot trucking rigs offer great service at more cost-effective rates, because you are dealing with smaller trucks and smaller loads. There is also less overhead to cover; which means more competitive hauling prices.

### Size

The sizes and versatility of these hotshot trucking rigs almost eliminate prolonged loading! Additionally, hotshot trailers are easier to maneuver through tight roads or towns that larger freighters would struggle to fit through.

### Expedited Transport

Hotshot shipping companies provide you with an option of same day or next day delivery

### Flatbed with Ramps

Flatbed with ramps for smoother and quicker unloading and offloading.
